Solar/LED Systems

Solar/LED Pole Installation

Solar/LED Systems

Greenhouse Strategies offers a wide range of US-made Solar/LED lighting systems for commercial and industrial applications where the power grid is unavailable, unreliable or alternative non-polluting energy is the preferred approach. Roadway, parking lot, structural, architectural, signage and walkway lighting are common applications for Solar/LED.

- High-Efficiency SunPower PV Panels
 - Up to 245W/panel
 - 25 year life
 - Warranty for less than 0.7%/yr. degradation
- Greenhouse LED lights and electronics
 - 50,000+ hour Phillips LEDs
 - Ultra-efficiency electronic controllers
 - Photo sensor and/or timer-based
 - Light heads from 12-48Vdc and 24 to 270 Watts
 - Variety of lensing options for optimal illumination
 - International Dark Skies (IDA) Compliant Lighting
 - Custom color heads
 - Vandal-resistant Lexan covers
 - Aluminum or Steel Poles from 12 to 50 feet
- Cooper Crouse-Hinds and Morningstar Solar Controllers
 - Wide range of system sizes
 - High-reliability over environmental extremes
- East Penn Mfg. Deka Dominator Sealed Gel Batteries
 - High Cycle Life
 - Wide-Temperature Operation
 - Maintenance-free Non-Spillable Technology
- Design, installation & support from Greenhouse and our dealer network

Greenhouse products: designed and built in NJ at our modern ISO 9001 certified facility.

Solar/LED Systems: Contact GHS for your solar lighting needs
